PROGRAM OVERVIEW & TARGET AUDIENCE

Kidney transplantation is the kidney replacement therapy of choice for most patients with advanced kidney disease, yet the average wait-time for a patient on the kidney transplant waiting list continues to increase. Over the last several years, allocation changes and national policies have been implemented to increase transplant rates and improve equity and access to transplantation. As the primary referral base, general nephrologists play a key role in patient education and the care of patients before and after transplantation.

The 2019 Advancing American Kidney Health Initiative (AAKHI) sets a goal of doubling kidney transplants by 2030. While transplant nephrologists remain central to the delivery of this care, the shortage of transplant nephrologists and the anticipated growth in the number of kidney recipients will mean that general nephrology providers assume increasing responsibility over these patients within the context of a shared-care model.

This program is intended for general nephrologists and advanced practice providers caring for kidney transplant candidates and recipients. It will address the latest updates in kidney transplantation across the spectrum of care: from kidney transplant candidate referral to wait-listing, transplantation and post-transplant care. A combination of case presentations and lectures will be used to provide an academically sound and clinically relevant review.

LEARNING OBJECTIVES

Upon conclusion of this educational activity, the participant will be better able to:

- Discuss new UNOS policy updates and changes in kidney transplant allocation, and their implications on transplant candidates.
- Identify and apply strategies to expand access to kidney transplantation.
- Discuss best practices for the long-term care of a kidney transplant recipient within a shared-care model.

HOSTING DEPARTMENT

New Horizons in Nephrology: Updates in Kidney Transplantation 2026 is hosted by the Penn Transplant Institute.

ACCREDITATION

In support of improving patient care, Penn Medicine is jointly accredited by the Accreditation Council for Continuing Medical Education (ACME), the Accreditation Council for Pharmacy Education (APE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

DESIGNATION OF CREDIT

Physicians: Penn Medicine designates this live activity for a maximum of 5.75 *AMA PRA Category 1 Credits™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Physician Assistants: Penn Medicine has been authorized by the American Academy of PAs (AAPA) to award AAPA Category 1 CME credit for activities planned in accordance with AAPA CME Criteria. This activity is designated for 5.75 AAPA Category 1 CME credits. PAs should only claim credit commensurate with the extent of their participation.

Nurses: This program provides 5.75 NCPD hours

American Board for Transplant Certification: As a designated Approved Provider by the American Board for Transplant Certification (ABTC), Penn Transplant Institute grants up to 5.75 *Category 1 Continuing Education Points* for Transplant Certification (CEPTC) for this offering. Approval 208-60.

Association of Social Work Boards: As a Jointly Accredited Organization, Penn Medicine is approved to offer social work continuing education by the Association of Social Work Boards (ASWB) Approved Continuing Education (ACE) program. Organizations, not individual courses, are approved under this program. Regulatory boards are Revised January 2025 the final authority on courses accepted for continuing education credit. Social workers completing this course receive **5.75** general continuing education credits.

Certificates and Transcripts: After the conference has concluded, all participants will receive a follow-up email with instructions and a link with instructions on how to claim their credit. Once participants submit the request for credit, the earned credits will be available for viewing on your transcript or available for printing at <https://upenn.cloud-cme.com>. Please note that the individual certificate will not be mailed.
