Series Educational Objectives

After participating in this regularly scheduled series, participants should be able to:

- 1 Review the latest legal decisions in the mental health field
- 2 Implement changes in report writing that need to parallel case law
- 3 Modify expert testimony to accommodate legal decisions

Session Educational Objectives

After completing this educational activity, participants should be able to:

- 1 To explore passages of religious texts that lay the foundation for current American criminal law and to consider how other countries have modified their laws based upon the same religious documents.
- 2 To compare the utilization of capital punishment in the United States today with consideration of gender, race, and economic status of the defendant and the victim.
- 3 To discuss whether there is a role for physicians, psychiatrists, psychologists and students to take a public stance against the death penalty and if so, whether this is indicative of bias in forensic contexts

Accreditation

In support of improving patient care, Penn Medicine is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

Acknowledgement of Commercial Support*

None

Disclosure of Relevant Financial Relationships and Unapproved Uses of Products

It is policy at Penn Medicine Office of Continuing Medical and Interprofessional Education for individuals who are in a position to control the content of an educational activity to disclose to the learners all relevant financial relationships that they have with any commercial interest that provide products or services that may be relevant to the content of this continuing education activity. For this purpose, we consider relationships of the person involved to include financial relationships of a spouse or partner.

The intent of this policy is to ensure that Penn CME/CE certified activities promote quality and safety, are effective in improving medical practice, are based on valid content, and are independent of control from commercial interests and free of commercial bias. Peer review of all content was conducted for all faculty presentations whose disclosure information was found to contain relationships that created a conflict of interest relevant to the topic of their presentation. In addition, all faculty were instructed to provide balanced, scientifically rigorous and evidence-based presentations.

The staff in the Office of Continuing Medical and Interprofessional Education (CME and IPCE), have disclosed that they have no relevant financial relationships with any commercial interests related to the content of this educational activity. Any peer reviewer with a potential conflict of interest will recuse themselves from the peer review process.

Name of individual	Individual's role in activity	Name of commercial interest/Nature of relationship
Linda Ramos, None	Activity Coordinator	Nothing to disclose
Kenneth Weiss, MD	Course Director	Nothing to disclose
Annie Steinberg, MD	Other Planning Committee Member	Nothing to disclose
Clarence Watson, MD, JD	Other Planning Committee Member	Nothing to disclose
Susan Rushing, MD	Faculty	Nothing to disclose

Relevant financial relationships are those relationships in which the individual benefits by receiving a salary, royalty, intellectual property rights, consulting fee, honoraria, ownership interest (e.g., stocks, stock options or other ownership interest, excluding diversified mutual funds), or other financial benefit. Financial benefits are usually associated with roles such as employment, management position, independent contractor (including contracted research), consulting, speaking and teaching, membership on advisory committees or review panels, board membership, and other activities from which remuneration is received or expected
